DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the closest prior of record (Schuster U.S. Patent No. 6,360,271 and Brent U.S. Patent No. 6,990,112) does not teach in detail setting the size of a jitter buffer for particular path based upon the jitter record of the region of network where the endpoint of the path is located in combination with all the elements of the independent claims as argued by the Applicants (see Amendments filed May 30, 2006 and November 20, 2006). So as indicated by the above statement, Applicant's arguments have been considered persuasive.

2. The dependent claims further limit the independent claims and are considered allowable on the same basis as independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 2-7, 9-11, 20-21 and 32-33 are allowed.
